

Verbier, 9 June 2021

Dear Copperfield parents & students,

With two and a half weeks remaining in our inaugural school year, the team at Copperfield would like to express our appreciation for all of your support and *fraternite* over the past eight months. We are thankful for the chance each day to nurture, guide, and educate your children.

NEW WEBSITE

We're proud to be a Swiss international school and yesterday we launched our [new website](#) and a new domain at www.copperfield.ch. Led by Leo Ackerman and experienced filmmaker Danya Schwertfeger, it showcases our busy and happy days on campus. We are grateful for the consent of parents to include their children in footage and no images of children were used without parental permission. It's important to us to get this right: our students are an end in themselves and not a means. They loved getting involved in the production process, which dovetailed with their work in Cinema and Music Production lessons these past months.

AN INVITATION TO INTERNATIONAL EDUCATION FOR ALL

One of our core values is that knowledge should be shared, and that education is a community endeavour. Therefore, from August 2021, any student with a desire to learn and to be part of our international, bilingual school, can apply for financial support via our new Assisted Places Program. This will make the benefits of an international education available not only to those most financially fortunate, but to talented students across Switzerland. The program offers tuition fee reductions of up to 90%, depending on the financial situation of the student's family, and will continue for as long as the student maintains academic standards and a good disciplinary record, all the way to university level. To find out more about the program, please visit the relevant page on our new website [here](#).

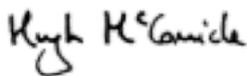

COPPERFIELD CONCERTS

We are thrilled to present "Copperfield Concerts," our showcase of world-class artists at Le Hameau starting next academic year, curated by Fernando, our Musical Director. Beginning with pianist Moritz Winkelmann, "*one of the most expressive and remarkable pianists of his generation*", Copperfield will host concerts in our magnificent 250-seat auditorium. These artists will travel to Verbier from Switzerland and around the world to share their virtuosity with our students and all members of the Verbier community.

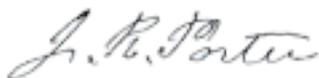

Aligning with our core values of internationalism and diversity, we will hear a range of genres, from classical to jazz, from rock to free improvisation. Fernando will collaborate with the artists to ensure the concerts are both appropriate and educational for our students. We are truly excited to share such a unique experience with you and your children. Below are the dates and artists that will perform at Copperfield. The concerts will begin at 17.30.
